"In-Ovation" by Tony Rosacci's

We are formally announcing the creation of our full service floral department, "In-Ovation". In an effort to make your event a little easier to plan, we now offer one-stop shopping not only for catering, but centerpieces, wedding flowers and impressive buffet floral pieces, as well. [See more of our designs!](#)

We are beginning in our current building in Centennial, but will be moving it to our new "Tony's Market" opening early in 2009 at 950 Broadway. Guests will be able to sit in a private meeting space in our restaurant, enjoy a glass of wine and discuss their catering menu while our professional floral designers create the perfect centerpieces. It couldn't be easier!
