Dear Avie,

Kudos to you and your team from 5280 Solutions!

I just wanted to say what a great job I think you did for our company holiday party on December 9th. From start to finish the experience was more than I expected. The appetizers and dinner selections received rave reviews from all the executives and many of our guests for days!

I especially appreciate the time you and your team took to provide décor and affordable options for our budget. You went above and beyond the call of any caterer I have ever used in the past.

Your catering and event manager Lisa Finney was the first person to promptly return my initial inquiry and that proved to be consistent with the quality of service I would receive till the very end of our event. She took time to ask questions, make helpful suggestions and was always patient through our many menu changes.

The on-site staff was polite, courteous and immediately introduced themselves and asked what they could do to assist me. I felt confident enough to leave the details up to them and actually enjoy the party for a change.

Thank you again for all your attention to the details and for making our party the best one yet.

Sincerely,

Rachelle Bowen
